Section 6: ACCIDENTAL RELEASE MEASURES	
6.1 Action taken if material is spilled or released:	<p>Small Spills: Absorb spills with inert material. Absorb liquid and scrub the area with detergent. Dilute with water.</p> <p>Large Spill: Determine whether to evacuate. Scoop/recover material into suitable waste container. Avoid exposure to, or contamination with, liquid organic materials or damp organic materials (e.g. wet paper towels, wood, clothing, etc. Use safety glasses or safety goggles if splash hazards exist; use gloves and other protective clothing (apron, boots, etc.) to prevent skin contact.</p>
6.2 Environmental Precautions:	Small or household quantities may be disposed in regular domestic trash. For larger quantities check with your local disposal authorities.

Section 7: HANDLING AND STORAGE
<p>7.1 Precautions for safe handling: Avoid contact with eyes, skin, and clothing. Do not expose to heat and flame. Use only in ventilated areas. Keep out of the reach of children. Avoid contamination with combustible organic matter (e.g. oil, sawdust, damp paper towels, etc.) metal, powder, or reducing agents. Contamination may cause decomposition, leading to fire. Decomposition of oxidizing material releases oxygen which may intensify existing fires. This product is intended for use by licensed cosmetologists.</p>
<p>7.2 Conditions for safe storage, including any incompatibles. Keep in a dry, cool place. Avoid freezing temperatures. Avoid contamination. Keep closed when not in use. Store in the original tightly capped containers away from sunlight, heat, sparks and flame. Do not store any tint after it has been mixed with developer; the container may rupture. Never return unused material to original container. Empty containers should be rinsed with water before discarding. Keep out of reach of children.</p>
