

Experience timeless beauty with our Bacetti Face Massage Cup and Eye'M Too Sexy serum, delivering a non-invasive eye tuck. Rejuvenate and revitalize your delicate eye area for youthful brilliance.

BENEFITS

- Instant and long-term eye tuck effect
- Intensive hydration
- Moisture sealing
- Reduces fine lines and wrinkles
- Skin tightening
- Rich in antioxidants
- Natural ingredients

MAIN INGREDIENTS

FRACTIONATED COCONUT OIL

Antibacterial, high Lauric Acid content, and rich in nutrients.

HEMISQUALANE

Moisturize boost.

ARGAN OIL (ARGANIA SPINOSA KERNEL OIL)

High in antioxidants and nutrients, it is revitalizing, moisturizing, and restructuring.

SEPIlift (DIPALMITOYL HYDROXYPROLINE)

It maintains the hydration of the skin by fixing water molecules, while stabilizing the collagen structure. It promotes the fiber regeneration of ECM and the interaction between cells and ECM, thereby stimulating collagen production and tightening. It has anti-elastase activity and can protect elastic fibers. Antioxidant, removes free radicals in the skin. Ceramide-like structure, moisturizing and repairing.

UPLEVITY-E LIFT (WATER (AND) TETRAPEPTIDE-1 (AND) CAPRYLYL GLYCOL)

is a high-performing and sustainable tetrapeptide inspired by microcurrent devices that mimics the benefits of electrical stimulation such as boosting MBNL1 protein levels, collagen contraction and mitochondrial function on the skin for a complete upper face lifted appearance and a reduced visibility of wrinkles.

FISION INSTANT LIFT (HYDROLYZED SOY PROTEIN, ACACIA SENEGAL GUM)

Instantly improves skin firmness. Noticeably more elastic and tighter skin, reduces the appearance of wrinkles, and smoothes skin. Immediately revitalizes for younger-looking skin.

ARGIRELINE (WATER (AND) ACETYL HEXAPEPTIDE-8)

Non-invasive Botox alternative. It restores the skin's natural water barrier, is a humectant, and improves skin elasticity. Inhibition of neurotransmitter release, decreased wrinkle volume and length, and is cell-communicating.

SHEA BUTTER (BUTYROSPERMUM PARKII)

It is moisturizing, anti-inflammatory, antioxidant, and antibacterial, promotes cell regeneration, and minimizes fine lines and wrinkles. Rich in hydrating properties that help to soothe and soften your skin without clogging pores.

ROSEHIP (ROSA RUBIGINOSA SEED OIL)

Replenishes dry and damaged skin. It is a natural derivative of retinol for anti-aging properties. It maintains the health of the skin and protects against further damage.

VITAMIN E (Tocopherol)

Antioxidant, it combats free-radical damage, and it is a very hydrating molecule since it works as both a humectant and an emollient and offers skin repair.

GLYCERINE (VEGAN SOURCE)

It is an emollient, increases skin hydration, and relieves dryness.

DIRECTIONS - HOMECARE

Dispense the serum by pumping the applicator and delicately roll it around the eye area in the morning and evening or whenever desired. For an intensified revitalizing experience, compress the Bacetti Cup and position it on the treatment area. Glide the cup slowly and smoothly, starting from the inner area above or below the eyes and moving towards the temples.

Remember, the key to unlocking the cumulative benefits of this ritual is consistency - incorporate it into your routine regularly for lasting results!
