

Elevate your skincare with a ritual designed to redefine the beauty of your lips and revitalize the area around the mouth - our unique Bacetti Face Massage Cup paired with the Plump Up the Volume treatment serum. Enhance your skincare routine and embrace a plumper, more youthful pout with our Lip Plumping Ritual - a luxurious journey toward timeless beauty.

BENEFITS

- Instant and long-term plumping
- Intensive hydration
- Moisture sealing
- Reduces fine lines and wrinkles
- Rich in antioxidants
- Natural ingredients

MAIN INGREDIENTS

FRACTIONATED COCONUT OIL

Antibacterial, high Lauric Acid content, and rich in nutrients.

PEPPERMINT (MENTHA PIPERITA OIL)

It offers natural healing, exfoliating, and moisturizing properties and plumping effects.

VITAMIN E (TOCOPHEROL)

Antioxidant, it combats free-radical damage, and it is a very hydrating molecule since it works as both a humectant and an emollient and offers skin repair.

COCOA BUTTER (THEOBROMA CACAO SEED BUTTER)

Assists the skin to hold moisture, improves blood flow to the skin, and slows skin aging by protecting against damage from the sun's harmful UV rays

CASTOR (RICINUS COMMUNIS SEED OIL)

Rich source of skin-beneficial fatty acids, effective emollient, assists to retain moisture and soften the skin, promoting a supple appearance. It offers antimicrobial and anti-inflammatory properties that help soothe irritated skin and reduce redness.

JOJOBA (SIMMONDSIA CHINENSIS SEED OIL)

Non-comedogenic and has moisturizing, antibacterial, antioxidant, anti-inflammatory, and healing properties. It creates a soothing seal and regulates sebum production.

HILURLIP™(SODIUM HYALURONATE, TRIPEPTIDE-1, XANTHAN GUM)

Increases lip volume, producing a long-term plumping effect on the lips. Enhances moisturization of lip skin. Protects lips' skin from environmental aggression like sun exposure and cigarette smoke, preventing premature aging of the lips. The basis of Hilurlip™ helps to lubricate the lips.

MEADOWFOAM (LIMNANTHES ALBA (MEADOWFOAM) SEED OIL)

It is full of nutrients that will soothe even the most dry, cracked lips. It offers natural ultra violet protection, moisturisation and protection to the skin.

DEHYDRASOME PLUMP OIL (HELIANTHUS ANNUUS (SUNFLOWER) SEED OIL (AND) LECITHIN (AND) YEAST EXTRACT)

Plump the lips. When applied to the skin, the hydrophilic portions of the phospholipids naturally migrate to hydrophilic environments where they assemble into a multivesicular system. The moisture in the skin causes these vesicles to swell and minimize the appearance of fine lines or plump the lips. Assist with trans-epidermal water loss (TEWL) to increase moisturization. Assist with active ingredient penetration. It offers nutritive and conditioning benefits.

DIRECTIONS - HOMECARE

Pump the serum applicator and gently roll onto the lips morning and evening or as desired. For your extreme plumping experience, squeeze the Bacetti Cup and place it on the lip line. Glide the cup from side to side in a slow and smooth manner. Work your way to treat the full upper and lower lip. Consistency is key for unlocking the cumulative benefits of this ritual - make it a regular practice for enduring results!
