Stretch marks

EFFECT

Elastic and compact skin
Replenishing
Replumping

ACTIVE INGREDIENTS

Vanistryl (Caprylyl/Capryl Glucoside, Lecithin, Glycerin, Pseudoalteromonas Ferment Extract, Acetyl Tripeptide-30, Citrulline, Pentapeptide-18, Xanthan Gum, Caprylyl Glycol) - Innovative marine based ingredient able to increase the synthesis of collagen and elastin. Contains a high number of active compounds that are designed to treat already formed stretch marks and prevent new ones from appearing.

Collagen - Fibrous protein and one of the main component of the dermis. Spread over the skin helps to achieve moisture and smoothness.

INFO

Apply a small amount of cream to the area to be treated. Massage the area until the product is completely absorbed.

Organic Silicon - Known as a beautifying mineral, it has a significant capacity to penetrate the skin. It is able to strengthen the connective tissues and to restructure the fibers of elastine and collagen.

For external use only. Avoid contact with mucous membranes.
Do not continue use in the event of irritation. Not suitable for children's skin.
