

(BODY RESCUE)**FIRMING**

Restructuring intensive cream

An effective solution to help improve firmness, elasticity, texture, hydration and appearance of the skin. Its main active ingredients are collagen and elastin which aid the stimulation of fibroblast activity and the synthesis of collagen in order to give strength to the cells in the deeper layers of the skin.

**PROBLEM**

Flaccidity
Lack of tone
Lack of moisture

EFFECT

Firming
Restructuring
Tonifying

ACTIVE INGREDIENTS

Elastin - Is a natural protein found in the skin and tissue of the body that helps to keep skin flexible and tight. Elastin's anti-aging molecules allow the skin to rebuild its natural elastic tissues and regain more youthful appearance.

Centella asiatica - Antioxidant with capacity to stimulate fibroblast activity and create new collagen fibers. Gives relief to swollen legs and promotes drainage for a smooth and more elastic skin. Vaso-protective and venotonic.

DMAE - Nutrient that stimulates production of own body's natural collagen extending so the life of cells and inhibiting the cross linking of proteins, which gives the skin firm appearance and prevents skin from sagging.

Collagen - Fibrous protein and one of the main component of the dermis. Spread over the skin helps to achieve moisture and smoothness.

INFO

Apply a small amount of cream to the area to be treated. Massage the area until the product is completely absorbed.

For external use only. Avoid contact with mucous membranes.
Do not continue use in the event of irritation. Not suitable for children's skin.
