ACTIVE INGREDIENTS

Collagen - Able to act on fibroblasts and stimulate growth and creation of new collagen within the extracellular matrix.

Elastin - Natural anti-aging protein that helps to keep skin flexible and tight.

Hyaluronic acid (low mol. weight) - Able to raise levels of moisture.

African Kigelia - Its special composition of peptides from the plant is able to generate an invisible and elastic net under the skin. Fights against loose and saggy skin. Optimal tonifying and moisturizing agent.

INFO
