

TEND PRODUCT SPECIFICATION SHEET

Usage	<p>TEND's Focal Vibration Therapy is engineered to provide precise relief and accelerate recovery across a wide range of conditions, helping you move better every day. TEND is especially beneficial for:</p> <ul style="list-style-type: none"> ● Musculoskeletal Disorders: Including Tendinitis, Carpal Tunnel Syndrome, Plantar Fasciitis, Arthritis, and Repetitive Strain Injuries. It reduces inflammation, alleviates pain, and boosts circulation to promote healing. ● Post-exercise Recovery: Ideal for athletes or anyone active, it speeds up muscle recovery by improving blood flow reducing lactic acid, and supporting recovery from sprains, strains, and muscle knots. ● Chronic Conditions: Relieves symptoms of Fibromyalgia, Sensory Processing Disorders, and various neurological conditions, easing joint stiffness, discomfort, and pain associated with arthritis. It also aids in scar mobilization. ● Specialized Issues: Effective for neck and back pain, tendon and ligament issues muscle and joint problems, and neural irritations. It also supports individuals with TMJ issues, promoting healing and relief. ● Additional Benefits: Offers therapeutic effects like vagus nerve stimulation, helping manage headaches and migraines, while contributing to overall well-being. <p>TEND is designed to support a variety of physical health needs - from acute injuries to chronic conditions - ensuring you get the relief and recovery needed to regain your best movement and health.</p>
Input voltage	5 V
Charging hours	2 Hours
Power consumption at the maximum level	1.3 watts per hour
Output when the product is in use	Output is a motor, the rotation speed and other info please see the attached sheet1
Image of the products	Please see the attached sheet2
Size of the products	Please see the attached sheet2
Warranty period	2 Years

Sheet 1				
Motor speed	RPM	Hz	MHz	Run time (min)
1	4710	79	0.000079	145
2	5673	95	0.000095	85
3	7469	124	0.000124	75
4	8310	139	0.000139	65
