

BARRIER PROTECTION PRODUCTS

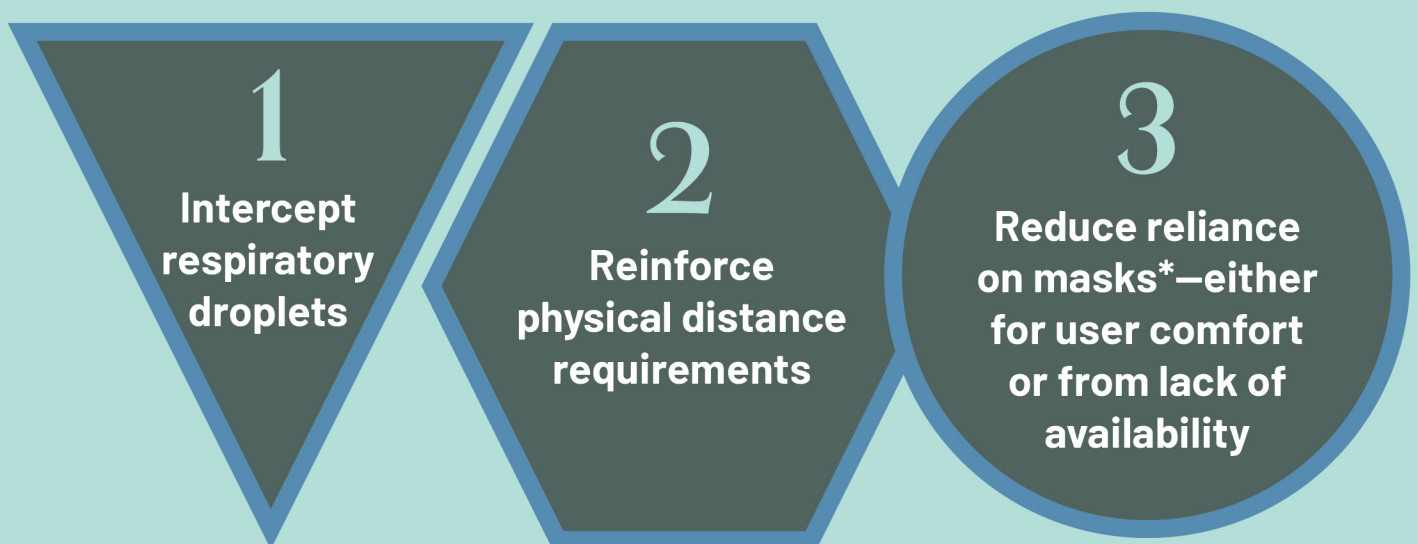

Set up uniquely designed barriers to minimize the threat of transmission and meet sanitation and distancing guidelines.

Partitions: the Great Barrier Relief

Social distancing isn't possible during spa treatments, as massage, waxing, and facials all require touch. For salon services, styling and pedicure stations are often fewer than 6' apart. Sometimes clients will even forget to bring a mask.

Barriers help solve all of these issues by providing 3 important functions:

**If staff and/or clients will be unmasked on opposing sides of a partition, it's essential that it has been installed and maintained such that it effectively prevents the co-mingling of droplets.*

Barrier Protection / Sneeze Guard

Adjustable Table Sneeze Guard

Perfect for manicures and other face-to-face salon or spa treatments! This high quality clear acrylic sneeze guard features rounded corners and a unique design that allows you to adjust height from 6" to 8". The adjustable height is perfect when additional equipment like nail dryers or lamps are needed for the service. It's easy to assemble and take apart for portable services or compact storage. Additionally, it's impact-resistant and easily sanitized. 24" H x 30" W

Benefits

- Excellent for face-to-face treatments
- Adjustable height
- Easy to assemble and disassemble
- Impact-resistant material
- Sanitizable

The Oakworks Shield reduces the risk of contamination by providing a barrier between you and your client.

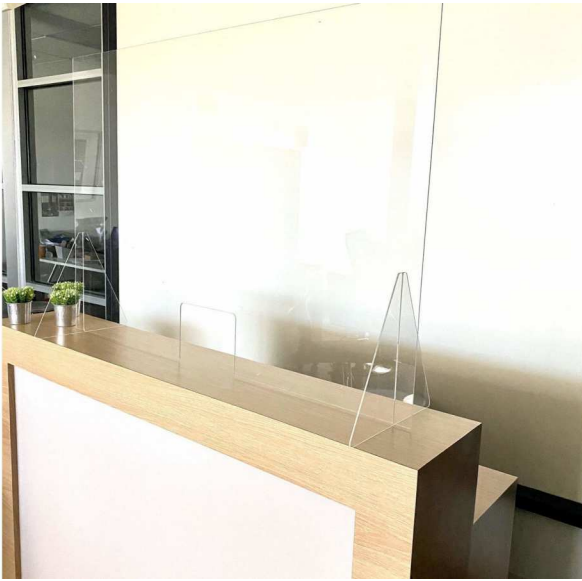

- Minimizes exposure to aerosols and droplets, even when proximity is a problem.
 - Includes enough film to make 25 barriers!
 - To create a new barrier, just cut off old barrier, pull out new material & clip in place.
 - Shield material and support elements can be disinfected allowing a single shield to be used for multiple days.
 - Sturdy design and rolling wheels make it portable, easy to move and position!
- The shield's optically clear film is very flexible, tear and abrasion resistant. It can be disinfected and used over and over again, minimizing cost. Visualization through the shield is excellent and practitioners can get close enough to work while maintaining good ergonomics. Easy to reach under the shield or position a body part outside of the shield.

SETTING UP YOUR MASSAGE TABLE

Safety & Comfort in 4 Easy Steps

1

USE AN ANTIMICROBIAL TABLE PROTECTOR

Table protectors help protect and extend the longevity of your table, while also preventing germs from spreading on or invading the surface.

2

ADD AN EXTRA LAYER OF COMFORT

Enhance your clients' experience with a plush table warmer.

3

INCORPORATE A MOISTURE BARRIER

Moisture barriers protect the layers beneath from being penetrated with sweat and oils and are very easy to clean.

4

USE DURABLE SHEETS & BLANKETS

Finally, dress your table with comfortable sheets, face rest covers, and blankets that get softer and maintain their quality after each wash.
