

# BODY PROTECTION GUIDE

Protect clothing from salon products and droplets with reusable and disposable apparel.

## Reusable Apparel

### Minimizes waste

When you opt for reusables such as cloth masks or salon capes, you decrease the amount of items going into a landfill.

### Provides Nice Look & Feel

Real fabrics, such as cotton, often come in a choice of patterns and styles for a unique look. Texturally, they also feel good!

### Reduces Replenishment

With reusables, you won't need to frequently re-order.

## Single-Use / Disposable Apparel

### Eases Client Concerns

Single-use disposables convey cleanliness and concern for client protection.

### Offers Quicker Turnaround

Disposable apparel, such as capes and gowns, offer a quicker turnaround between services.

### Lends Efficiency

If disposable apparel inventory is properly managed, your spa or salon won't run out of capes or aprons if the laundry doesn't get done.
