

FACE & EYE PROTECTION GUIDE

Demonstrate to your clients you're serious about their safety by wearing face protection. For added caution, consider supplying facial protection products as an amenity.

The CDC recommends wearing face coverings in public settings.

Protect your clients, yourself, and your business with face mask tips from the CDC

Wearing protective facial coverings helps to prevent the spread of COVID-19 and should be worn even if you, your employees, and your clients do not feel sick.

Do NOT use a face mask meant for a healthcare worker.

Continue to keep about 6 feet between yourself and others. The cloth face cover is not a substitute for social distancing.

Make face masks available to your clients with a sanitation station or reusable mask options.

Designed for Comfort & Performance in a Working Spa Environment

A respected London-based company, Fashionizer Spa normally supplies uniforms to luxury spas and hotels all over the world. Since the pandemic, they've focused their design skills and materials to make lined and layered face masks to help keep spa professionals safe. While the masks aren't meant as medical devices, they have a BFE rating of 77%.

Disposable Masks

Quality disposable masks are difficult to source due to the priority allocations for our frontline healthcare workers. Because of this volatility, prices and availability are subject to change without notice; however, we have shipments arriving daily. So, if you find something out of stock, we will happily notify you so that you are first in line to know when more masks arrive.

[SHOP NOW](#)

3-Ply Surgical Masks

Pleated design offers a looser fit, creating a physical barrier between the mouth/nose of the wearer and blocking potential contaminants. The edges of the mask are not designed to form a seal around the face.

KN95 Masks

Pointed design helps keep mask from touching the nose and mouth and achieves a very efficient filtration of airborne particles. The edges are designed to form a seal and provide a very close fit around the face.
