

ESSENTIAL OILS

Ethically sourced from family farms worldwide, Pure-ssage Essential Oils are crafted with care and intention for professional use. Create customized treatments by adding these exceptional oils to your favorite Pure-ssage products, amplifying your services and creating memorable experiences for your clients.

Recommended Usage

Massage: Always blend essential oils with a carrier oil before use in massage. A 2% dilution (10-15 drops per ounce of carrier) is recommended. You may increase the dilution, but do not exceed 3%.

Inhalation: Enhance your client's experience with an aromatherapy inhalation. Simply warm 1-2 drops of essential oil in your palms and invite them to inhale.
