

Usage Instructions

Product Name

Ardell® Fashion Lash

Procedure

1. Thoroughly clean eyelashes and eyelids so they are make-up and oil-free.
 2. Check Fit: Lay lash on top of natural lash. If it extends beyond the lash line, trim the excess with small scissors.
 3. Apply Adhesive: Squeeze a thin line of LashGrip® Adhesive along the lash band. A toothpick can be used to spread it evenly. Wait about 30 seconds for adhesive to set.
 4. Apply Lash: Place the lash as close to the natural lash line as possible. Use your fingertip to gently press along the band to secure in place.
