Brow Lamination

Laminate eyebrows to achieve naturally full, well-defined arches. This treatment is ideal for smoothing and reshaping unruly or asymmetrical hairs—realigning each strand to create a more even, polished outline. Results last approximately 6 to 8 weeks, maintaining the look of added volume and a clean, sculpted shape.

*Always check with your local state regulations to ensure that you are practicing within the scope of your license.

SAMPLE MENU DESCRIPTION:

Create perfectly sculpted, fuller-looking brows with hold that lasts up to 6 weeks. This lamination treatment smooths and lifts each hair for a clean, defined arch—no makeup or brow gel needed. Say goodbye to daily styling and hello to effortlessly matching brows every morning.

Recommended (optional), for add-on tinting treatment:

- Intensive Tint (deep black or blue black) LT101, LT102
- Intensive Cream Developer Oxidant LT211
- Tinting Brush round tip LT204
- Intensive Tint Remover LT207

Preparation

- Gently massage all sachets before opening to activate ingredients.
- Complete the client consultation form and position the client comfortably.
- Have the client lie down, offer a blanket, and secure the hair with a headband.
- Drape a towel or bed roll across the upper body to protect clothing.
- Sanitize hands thoroughly.
- Remove all eye and brow makeup using Intensive Eye Make-up Remover Foam and a clean cotton pad.
- (Optional) Take a before photo of the client.
- Use a Disposable Mascara Wand to comb brows upward and assess brow shape

Step 1: Waving Lotion Application

- 1. Apply a thin coat of Biosmetics Lash n Brow Bonder.
 - Use a clean mascara wand to straighten and shape the brow hairs, ensuring curly hairs are smoothed and sparse areas are covered.
 - Focus on brushing hairs into their ideal final shape.
- 2. Gently massage sachet of Cream No. 1 Waving Lotion before opening.
- 3. Apply a thin layer using an Intensive Microbrush
- 4. Use a mascara wand to brush hairs in the desired direction, ensuring even coverage
- 5. Processing Time:
 - Very fine brows: 3-4 minutes
 - Fine or tinted brows: 4-5 minutes
 - Natural healthy brows: 5-6 minutes
 - Coarse healthy brows: 6-7 minutes
- 6. Remove Lotion No. 1 using a dry cotton round or cotton bud, brushing in the direction of hair growth
 - Discard used wiping brush.

STEP 2: Neutralizer Application

- 1. Apply Cream No. 2 Neutralizer Lotion using a clean Microbrush
- 2. Comb through brows with a clean mascara wand, setting them in the correct shape.
- 3. After the same processing time as Step 1, remove Lotion No. 2 with a dry cotton round or cotton bud, brushing with the direction of hair growth.
 - Discard the used wiper.

STEP 3: Conditioning & Finishing Touches

- 1. Apply Cream No. 3 Conditioning Lotion (Leave-In Serum) using a fresh Microbrush.
- 2 Apply a few drops of Intensive Relaxing Eye Cream to the client's eye area.
- 3. Take an "After" photo if desired.
- 4. Review aftercare instructions with the client and provide a printed copy.
- 5. Recommend daily use of the Intensive Lash n Brow Moist Pen for hydration and brow health

Processing Time for Conditioning Lotion:

- Very fine, fine, or tinted brows: 5 minutes
- Natural healthy or coarse healthy brows: 6 minutes

Optional: Tinting (Recommended)

- 1. Prepare desired Intensive tint and apply using an application bush
- 2. Processing time: 1-3 minutes only!
- 3. Remove tint with a dry cotton round or lint-free cotton bud.

- Keep brows dry for 24-48 hours after treatment.
- Avoid makeup or any eye treatments for 24-48 hours.
- Do not rub, touch, or scratch the brows.
- Avoid swimming, sauna, and excessive sweating for 24-48 hours.
- If irritation occurs (e.g., stinging or swelling), apply a cold damp cotton pad or compress. Seek medical attention if symptoms persist.

When aftercare is followed properly, results can last up to 4-6 weeks.
