

Hourglass Jewelry Cleaning Kit

Add sparkle to your client's jewelry in just a few minutes. Ideal for all types of jewelry except pearls. Can be used in hydrotherapy treatment rooms, massage, facial, manicure, and pedicure facilities.

Usage

- Let client's know of this added service with treatment.
- Have client to remove jewelry (do not cleanse pearls).
- Place the jewelry in the top portion of the hourglass.
- Tighten lid securely.
- Invert the hourglass to begin the cleaning process.
- Remove jewelry with the plastic tweezers provided.
- If cleaning during a facial, remove the jewelry from the cleaner during the mask process.
- If cleaning during a massage, remove the jewelry while the client is getting undressed. (before the treatment).

Cleaner

1. Fill bottom of hourglass with water slightly below the taper.
2. Add ¼ fluid ounce Jewelry Cleaner Concentrate (bottle is marked with measurement).
3. Secure lid and invert to mix cleaner with water. The solution is now ready.
4. Change solution when you see debris.

DANGER
