

Beauty Heat Cap

The Beauty Heat Cap conditions and treats dry and damaged hair – hair that has been over processed, dyed, or environmentally damaged. It also helps control dry itchy scalp. Heat helps conditioners and muds to absorb better to keep hair radiant, soft and manageable.

Usage

1. Pre-heat cap on high setting.
2. Apply conditioner, mud, or other heat-activated product to hair.
3. Apply plastic shower cap.
4. Adjust heat cap to desired setting and wait 2 minutes.
5. Place cap on head for 15 to 20 minutes or according to conditioner directions.

**Heat Cap is Blue
