

Smoothing Massage Butter

Melt tension away with our velvety rich massage butter that is the ultimate in versatility. A preferred formula for full body massage, this all-purpose formulation combines the workability of oil with the clean absorbency of a lotion, offering smooth glide without greasy after-feel. The ultra-hydrating benefits of specialized Wheat and Apricot Amino Acids, protecting and repairing Beta Glucan and replenishing Shea Butter, Jojoba, Avocado and Sunflower oils soothe, tone and soften the skin.

FEATURES	BENEFITS
Workability of Oil and absorbency of Lotion	All-purpose formulation. Can be used for numerous therapy modalities. Provides smooth glide without greasy after-feel. Very versatile. Apply a larger amount to skin and have the lasting glide of oil, or use less and create more friction for deeper work into tissues.
Rich, luxurious texture	Clients will enjoy the pampering feeling of the crème on their skin. Skin will feel silky and deeply hydrated. Will not spill on carpets and floors.
Contains African Shea Butter	Naturally rich in vitamins A, E & F, which are essential vitamins needed for good skin balance. It increases the hydration and protection of superficial layers of epidermis. Excellent for soothing irritated skin and healing chapped skin.
Contains Apricot and Wheat Amino Acids	Able to penetrate the epidermis where these powerful moisture-binding properties allow them to retain up to four times their weight of moisture. Accelerates epidermal cell renewal and gives skin a soft, smooth and supple feel.
Contains Swiss formulated Beta-Glucan	Has the highest concentration and potency when compared to the common solutions available. Yeast derived. Stimulates the skin's self-protecting mechanism to help protect itself against UVA induced oxidative stress. Promotes cell turnover. Healing, protecting, moisturizing.
Unscented	Ideal for clients with allergies to fragrance. Can be customized with any BIOTONE SPA Customizing Complex or BIOTONE AROMATHERAPY Essentials Oils or Blends.
Oils are Cold-Pressed extracted	Helps maintain the natural vitamins and minerals content to maximize skin benefits.
Contains Jojoba Oil	Dissolves sebum, which causes acne, and makes skin look and feel satiny smooth. With balancing and soothing properties it is an excellent source for deep, nourishing skin care. Jojoba is the oil closest to the natural oils in the skin.
Contains Peach Oil	Ideal for dehydrated and delicate skin, it is absorbed slowly and helps relieve itching, making it ideal for treating eczema and other skin conditions involving dry, scaly skin.
Contains Avocado Oil	Softening and smoothing to the skin. High fat content with Vitamin A and C components will protect and soften skin.

Contains Sunflower Oil	Is lightweight and helps provide a protective layer to skin after application.
Can be customized with any BIOTONE SPA Customizing Complex or BIOTONE AROMATHERAPY Essentials Oils or Aromatherapy Blends.	An unlimited amount of "signature" exfoliations treatments can be created to enhance the spa service menu. The exfoliation can easily become an Aromatherapy service. The use of botanical extracts and essential oils provides additional therapeutic and beauty benefits for the client.
Water Based formula	Washes out easily from linens or clothing.
Complementary retail line available	Clients can enjoy the hydrating effects of this product everyday. Allows for added revenue when home care products are sold to clients. Clients will return for follow-up purchases. Available in a variety of botanical extract and aroma choices. Provides various options to enhance the spa service menu.

Selling Tips:

- Intensive moisture with Shea Butter
- Workability of oil with absorbency of a lotion
- Soothe, tone and soften skin
- Complementing retail line available
- Customizable – can be used with any essential oil or customizing complexes. Offer a variety of treatments but invest in only one base product.
