

Mehaz Nail Clipper

Get the professional results your clients are looking for. With Mehaz you get a sanitizable stainless steel, file, with a unique catcher for nail clippings

Usage

1. Disinfect using a system that complies with local laws.
2. If you completely immerse in disinfecting solution, be sure to use solution that is safe for both metal and plastic.
3. It is recommended that you remove the clipping catcher before disinfecting.
4. Dry thoroughly after disinfecting.
5. Store nail clipper in a dry area.
6. Protect the tips of the blade.
7. Do not carry implements unprotected in a bag.
