

## **Pre-Wax Spray**

---

The Pre-Wax Spray contains Tea Tree oil, a natural antiseptic with the ability to slightly desensitize the skin providing comfort during a waxing treatment. In addition, this product acts as a cleanser removing dirt, make-up, and excess body oil from the treatment area.

### **Usage**

1. Spray a small quantity on the treatment area.
2. If working around the eye and mouth area, spray pre-wax on a cotton ball.
3. Remove with a dry, clean cotton ball.
4. Allow area to dry thoroughly before applying dusting powder.
