

Vitamin C Brightening Activator

Vitamin C Brightening Activator

Sizes Available
8oz

Product Description:

This versatile and dynamic antioxidant mask system provides repair, rejuvenation, lightening, firming and purification in one. It is highly effective after exfoliation procedures to calm the skin, and feed the skin a dose of Vitamin C.

Skin Types & Conditions:

All skin types. Targeted for sun damaged skin, hyperpigmented, active acne or acne-prone skin.

Benefits:

- Enhances brightness and clarity
- Fights free-radical damage
- Reduces inflammation
- Firms and tones

Usage: Mix one teaspoon of **Vitamin C Brightening Mask Powder** with enough **Vitamin C Brightening Activator** to create a creamy paste. Apply evenly to the skin with a fan brush. Avoid eye-lid area. Leave mask on for approximately 10 minutes and remove with warm water, refer to *Control Corrective's Technical Manual*.

Treatment Room: C New Brightness Facial.

Featured Actives:

Grape Seed Extract - This extract is non-irritating and very soothing. It helps reduce redness in the skin. It decongests, acts as an antioxidant, and is anti-inflammatory. It is moisturizing and nourishing to the skin. It has naturally occurring Vitamin C, chlorophyll, and enzymes.

Lactic Acid - An alpha hydroxy acid derived from sour milk, lactic acid has been used for centuries to relieve dry, aged skin. Lactic acid has better water intake than glycerin and studies report that lactic acid has an ability to increase the water-holding capacity of the corneum layer as well as improving the elasticity of the skin. Clinical studies report that lactic acid concentrations 4 oz. between 5% and 12% offer an improvement in softening the skin and refining wrinkles. Lactic acid is less irritating on sensitive or dry skin than some of the other AHA ingredients.

Vitamin C Brightening Activator

Vitamin C Brightening Activator

Alpha Hydroxy Acid (AHAs) - In this formulation, a combination of naturally derived alpha hydroxy acids occurs in the form of Lemon, Orange, Sugar Maple, and Cane Sugar extracts.

Witch Hazel Extract - This ingredient is known for its astringent properties. Witch Hazel extract is also toning, anti-inflammatory, and regulating. Derived from the leaves and the bark of the tree and known as Hamamelis, it has a proficient vasoconstrictor effect that is excellent for inflamed irritated or acneic skin conditions. Research has shown that Witch Hazel is effective against free radicals and acts as a UVA and UVB absorber. It is also used in ointments for the treatment of sunburns, bruises, and insect bites.

Ginkgo Biloba - This herb is credited with antioxidant properties. It also appears to aid fibroblast cell production with collagen and elastin. It provides anti-inflammatory benefits and helps as a vasodilator to increase blood flow and stimulate tissue oxygen consumption. It is considered anti-aging and is made of several beneficial amino acid compound
