## Cold Marble Half Moon Stones

### Description

These stones can be used warm or cold and can be placed on the eyes during facials and other treatments.

Traditionally marble eye stones are used cold and can maintain their cool/cold temperatures for long periods of time. They can be placed on the eyes or under the eyes to help tone the muscles of the eyes, lessen wrinkles and reduce swelling. Cool temperatures help decongest and flush fluids and wastes out of tissues that are inflamed, resulting in the reduction of dark circles and puffy eyes.

  
**PROSANA™**  
Essentials for the Wellness Professional

The set includes 2 white marble stones that fit perfectly on or under the eyes during facials and other treatments. Each stone weighs approximately 0.5 oz. 1.825" L x 0.75" W x 0.375" thick.

### Benefits:

- ❑ Helps relax your client and soothe puffy eyes.
- ❑ Helps tone the eye muscles and lessen wrinkles.
- ❑ Helps eliminate dark circles under the eyes.

### Usage Instructions

To chill your Cold Marble Half Moon Stones, place them in a bowl of cold water (not ice). To warm them, place them in a bowl of warm (not hot) water.
