
Enzyme Whitening Collagen Mask

Description

The soothing facial mask reduces hyperpigmentation conditions such as sun spots, age spots, and freckles. Revitalizes, nourishes, and restores moisture. Tones and balances the skin, leaving it refreshed and radiant.

Skin Type: Hyperpigmented, environmentally damaged skin conditions. All skin types.

Benefits:

- Helps:
 - Reduce hyperpigmentation conditions, such as sunspots, age spots, and freckles.
 - Revitalize, nourish, and restore moisture.
 - Tone and balance the skin, leaving it refreshed and radiant.

Ingredients

Aqua, Glycerin, Cucumis Sativus (Cucumber) Extract, Hamamelis Virginiana (Witch Hazel) Extract, Sweet Almond (Prunus Amygdalus Dulcis) Oil, Simmondsia Chinesis (Jojoba) Oil, Hydrolyzed Milk Protein, Glyceryl Stearate, Hyaluronic Acid, Ascorbic Acid, Tocopheryl Acetate, Hydrolyzed Collagen, Phenoxyethanol, Bisabolol, Allantoin, Fragrance, Ubiquinone.

Allantoin	A botanical extract that is healing and soothing. An excellent anti-irritant (temporary) that helps heal damaged skin by stimulating new tissue growth.
Aqua	Water
Ascorbic Acid (Vitamin C)	A well known antioxidant that is popular in anti-aging products. Its synergistic effect with vitamin E is excellent. As vitamin E reacts with a free radical, it is damaged. Vitamin C repairs the free-radical damage in vitamin E allowing it to continue scavenging free radicals.
Bisabolol	A botanical that has anti-inflammatory and soothing properties.
Cucumber Extract	From the fruit. Has moisture-binding, moisture-regulating, soothing, tightening, anti-itching, refreshing, softening, healing, and anti-inflammatory properties. Contains amino acids and organic acids that help strengthen the skin's acid mantle.
Fragrance	Provides an aroma to the product.
Glycerin	A solvent, humectant, and emollient. It absorbs moisture from the air.
Glyceryl Stearate	An emulsifier that assists in forming neutral, stable emulsions. It is also a solvent, humectant.

Hyaluronic Acid	A substance that occurs naturally in the dermis. It is a natural moisturizer with excellent water-binding capabilities. When applied to the skin, it forms a film similar to the way it holds water in the intracellular matrix. The ability to hold water provides smoothness, improving the skin's appearance.
Hydrolyzed Collagen	Modified collagen. Has the ability to bind and retain many times its weight in water.
Hydrolyzed Milk Protein	Forms a film on the skin's surface which allows the skin to retain moisture.
Jojoba Oil	A moisturizer and emollient. It reduces transepidermal water loss without completely blocking the transportation of water vapor and gases, providing the skin with suppleness and softness.
Phenoxyethanol	Broad range preservative with fungicidal, bactericidal, insecticidal, and germicidal properties.
Sweet Almond Oil	An emollient with soothing properties.
Tocopheryl Acetate	Vitamin E - An important oil-soluble antioxidant and free-radical scavenger when applied topically. It is also has photoprotectant capabilities and helps protect the cellular membrane from free-radical damage. It also serves a preservative function due to its ability to protect against oxidation.
Ubiquinone	Antioxidant and skin conditioner.
Witch Hazel Extract	Has anti-inflammatory and wound healing properties. Often used for its anti-itching, softening, and emollient properties.

Usage Instructions

1. Apply mask on a thoroughly cleansed face.
2. Leave on face for 15 to 20 minutes.
3. Remove mask and finish with a toner and moisturizer appropriate to your client's skin type.
