
Collagen Transdermal Mask

Description

Collagen decreases with age and aggressive environmental effects. This skin quenching, luxurious mask is activated by an intensive concentrate of collagen that provides a protective layer that helps to hold in the skin's natural moisture. Collagen is a rich fibrous complex protein that is the main structural element of the skin's connective network.

Skin Type: Can be used for all skin types, but is specially formulated for normal, dry, and mature skin.

Benefits:

- Provides a protective layer that helps to hold in the skin's natural moisture.

Ingredients

Aqua, Butylene Glycol, Glycerin, Ginkgo Biloba Extract, Hops (Humulus Lupulus) Extract, Anthemis Nobilis (Chamomile) Extract, Hydrolyzed Collagen, Hydrolyzed Elastin, Green Tea Extract, Carbomer, Triethanolamine, Hyaluronic Acid, Phenoxyethanol, Bisabolol, PEG-40 Hydrogenated Castor Oil, Fragrance

Anthemis Nobilis (Chamomile) Extract	Reduces inflammation and soothes sensitive skin.
Aqua	Water
Bisabolol	A botanical that has anti-inflammatory and soothing properties.
Butylene Glycol	A solvent with good antimicrobial properties. It enhances the preservation activity of parabens.
Carbomer	Thickening and suspending agent; emulsion stabilizer.
Fragrance	Provides an aroma to the product.
Ginkgo Biloba Extract	A beneficial anti-aging ingredient - has antioxidant properties. Also appears to help the production of collagen and elastin. Anti-inflammatory, may help improve a couperose condition due to its protective effect on vascular walls.
Glycerin	A solvent, humectant, and emollient. It absorbs moisture from the air.
Green Tea Extract	Powerful antioxidant due to its catechin content. Also has antibacterial, anti-inflammatory, and stimulating properties.
Hops (Humulus Lupulus) Extract	Components in hops may have antioxidant and antibacterial properties. The plant may also have estrogenic properties.

Hyaluronic Acid	A substance that occurs naturally in the dermis. It is a natural moisturizer with excellent water-binding capabilities. When applied to the skin, it forms a film similar to the way it holds water in the intracellular matrix. The ability to hold water provides smoothness, improving the skin's appearance.
Hydrolyzed Collagen	Modified collagen. Has the ability to bind and retain many times its weight in water.
Hydrolyzed Elastin	Forms a film on the skin's surface - processed form of elastin. Helps alleviate the effects of dry skin, enhance flexibility, improve the feel of skin, and increase and improve the tension of the skin.
PEG-40 Hydrogenated Castor Oil	A hydrophilic emulsifier, stabilizer, antigellant, and lubricant.
Phenoxyethanol	Broad range preservative with fungicidal, bactericidal, insecticidal, and germicidal properties.
Triethanolamine (TEA)	An emulsifier and pH adjuster.

Usage Instructions

1. Remove the transdermal mask from the sealed packet. Peel the protective cellophane from one side and apply it to the face, then remove the cellophane from the other side of the mask.
2. Gently tap and smooth the mask to remove any air bubbles.
3. Allow the mask to remain on the skin for 20 to 25 minutes.
4. For deeper penetration, apply steam.
5. Gently remove the mask and any remaining residue from the skin.
6. Finish with an appropriate toner for your client's skin type.
