TCA Intense Peel

Cost Per Treatment: $9.38

Time: 45 minutes

What to Charge: $225

Tackle tired and aging skin immediately with this intense peel treatment. This peel uses 20% trichlorocetic acid (TCA)—which has been used in peels for over 20 years—to dry and peel the top layer of the skin over a period of several days to a full week. Perfect for those who improve skin clarity and stimulate natural collagen production.
What You'll Need:

- TCA Intense Peel, pH 1.7 (1 fl. oz.) / N9110

Recommended Supplementary Products:

- PSN122 Prosana Cleansing Cream, 16 fl oz
- PSN127 Prosana Refining Mist, 8 fl oz
- N9104 Prosana Cooling Mask
- PSN129 Prosana Calming Balm, 8 oz

Skin Types & Conditions:

- Great for aging and acneic skin. Also works well for uneven skin tone and texture, various levels of hyperpigmentation, and Fitzpatrick I, II, and III.

Important Notes:

- **Professional use only**

- **Use caution when administering TCA Intense Peel to Fitzpatricks 4-6**
    - Due to the risk of of Post Inflammatory Hyperpigmentation, extensive skin preparation is mandatory, typically requring 6-8 months of pre-treatment

- This treatment shouldn't be performed on any client:
    - Who suffers from any skin condition or serious medical condition, such as immune disease, cancer, diabetes, eczema, psoriasis, or herpes
    - Who are allergic to asprin
    - Who are pregnant or lactating
    - Who have an active facial rash, cold sores, or lesions

- A patch test is recommended 24-48 hours prior to this peel procedure

- Sun protection should be used after this service

- Accutane: 1 year off

- Retin-A: Discontinue for 7-10 days prior to treatment

- Permanent Cosmetics: Wait 7 days then cover with occlusive barrier

- Immediately Post Lift or Facial Surgery: Needs doctor approval

- Rosacea: Will need to be evaluated

- Facial Waxing: Requires a 72-hour waiting period

Cost/Profit Breakdown:
TCA Intense Peel Cost: $75
Amount Per Bottle: 1 fl. oz.
Estimated Services Per Bottle: 8
Average Amount Used Per Service: 0.12 fl. oz. (3.5 ml)
Average Cost Per Service: $225
Total Profit Per Bottle: $1,800

What to Do:

1. **Cleanse and tone the skin thoroughly**, removing all makeup and debris. Perform a double cleanse, if necessary, and degrease with an AHA Toner. *We recommend Prosana Refining Mist.*

2. **Apply petroleum jelly** to the area under the lash line, around the nostrils, the vermilion border of the lips, and the corners of the mouth.

3. **Saturate a 2x2 gauze pad** with approximately **3–4 ml of TCA Intense Peel solution**. Apply a **single, even layer** of TCA Intense to the skin, beginning at the forehead and working down the jaw line in short, even strokes. *It's not necessary to layer this peel. "Frosting" will be visible, and a fan may be necessary for client comfort.*

4. **This peel is self-neutralizing** when used alone. Once applied to the affected area, **it cannot be neutralized.**

5. **To cool the skin**, apply a gentle cream cleanser *(we recommend Prosana Cleansing Cream)*. Several rinses and applications of Cleansing Cream may be needed to help soothe the affected area. Gently massage any residual hot spots. *Water alone may spike and trigger acids to further process.*

6. **Apply a thin layer of your preferred calming balm or serum.** *We recommend the Prosana Calming Balm.* If it's daylight, follow with a **sun protectant product**.

7. **Instruct the client not to cleanse their face for 24 hours**. Provide the client with **a complete list of post-care instructions.** *Appropriate post-care is* <u>mandatory</u> *after receiving this peel.*

8. **For best results**, reschedule the client for a **7-Day Post-Care Treatment**, such as a soothing facial with a gentle enzyme exfoliation. *We recommend Prosana Lactic Enzyme Gel Peel (N9107).*

Aftercare:

9. Recommend that clients **do not wash their face for 24 hours** after treatment.

10. **Avoid aggressive products** until an esthetician evaluates the skin at the 7-Day Post-Care Treatment.

11. **Peeling can last up to 5–6 days** post-treatment.

12. Schedule the client to return in **7 days** for the **gentle enzyme facial**.
