ULTRACARE
DISINFECTANT

Ultracare® Disinfectant System

Instructions: Beauty/Barber Use

Fill plastic beaker with water to below "fill line" (48 oz.). Add 3/4 oz. ULTRACARE Disinfectant Cleaner Concentrate, and insert basket to mix the solution. Place precleaned combs, brushes, shears, clippers, razors, manicure and skin care implements into basket and immerse for 10 minutes. Rinse thoroughly and dry before use. Change solution daily for maximum effectiveness.

Important

Plastic implements may remain immersed until ready to use. **Stainless steel shears and other metal implements must be removed after 10 minutes, rinsed, dried and kept in a clean, non-contaminated receptacle.** Prolonged soaking may cause damage to metal instruments.

To Clean/Deodorize/Disinfect non-porous surfaces such as countertops, footbaths, tanning beds, telephones, sinks, toilet seats, etc., use ULTRACARE Solution at a dilution of 1:64 (1/4 oz. per pint or 1/2 oz. per quart of water). Apply solution with a spray bottle, mop or sponge. Allow surface to remain wet for 10 minutes, then wipe and air dry.

Note

To avoid damage to plastic beaker, use **ONLY ULTRACARE** Disinfectant.
