

This body mitt combine three-quarters superb natural fibres with one quarter pure copper threads for a 100% seamless and super smooth exfoliation. Can be used with or without soap in the shower or used as a dry exfoliation. Copper is an excellent weapon against the signs of ageing thanks to the SOD (superoxide dismutase) that fights free radicals, the main cause of ageing. Copper is clinically proven to reduce the appearance of ageing for smoother, younger-looking skin. Can be used daily.

BENEFITS

- The Copper Glow Mitt is ideal to exfoliate, fight free radicals, and hydrate the skin in one application.
- Frequent exfoliation is key to:
 - Treat and prevent ingrown hairs
 - Stimulate collagen and elastin production
 - Assist with poor circulation
 - Remove spray tan effectively
 - Calm the nervous response as seen in restless leg syndrome
 - Assist with uneven skin tone, acid bumps, scars, and stretch marks
 - Increase the activity of products by removing dead skin cells that block the penetration of ingredients
- Bacteriostatic: Copper respects the skin and protects it from bacteria and pollutant dust, eliminating that risk of annoying allergies.
- Antimicrobial: Copper is able to eliminate a wide range of microbes by acting directly on the cell wall, preventing the growth of microorganisms.
- Antistatic: Copper fibers are able to absorb and disperse the electric charges that the body accumulates from the environment.

INGREDIENTS

- Copper threads – Copper ions stimulate skin regeneration and create a surge of microcirculation. This action increased oxygen and nutrient delivery to cells.

CONTRAINDICATION

- Active acne
- Cancer
- Thrombosis
- Rosacea/weeping eczema
- Do not use if allergic to copper
- Sunburn
- Open cuts or abrasions
- Extremely sensitive skin or areas where there are broken capillaries

DIRECTIONS

- Use in the shower or bath on damp skin. Slip your hand into the dampened mitt and massage your body from the feet upwards in circular motions, 2-3 x per week.

CARE INSTRUCTIONS

- Salon use: Send to laundry at the end of the day and wash with disinfectant soap in between usage and hang to dry.
- Home use: Rinse after each use and hang to dry. Once a week wash in the washing machine.
- Washing machine 50 degrees, no bleaching, do not tumble dry.
